Why are we asking you to state that you need food OR are eligible to receive USDA-provided food?

The majority of food that the First Parish Newbury Food Pantry provides is purchased by the pantry or donated by the community. We distribute some food that is provided at no cost by the USDA and are therefore required to request that you declare that you are eligible to receive USDA foods.

If you need food or are eligible to receive USDA food, please check the box indicating that.

If you have any questions or concerns, please call 978.358.1077.
